To: Aryae Coopersmith <aryae@owl1.net>

Dear Aryae and Global Community,

We `people` in Myanmar, these days and nights, are living in a secure and dangerous daily life as the military coups, police officers and the military-paid gangsters are attacking the people in various ways.

Whilst, the people of each community in villages, towns and cities are creating their own community-based security guards in turns at day and night times until our democratically elected government has been restored.

As shown in the Facebook link, the police officers has got inside the house they intend to find a person they want without any more warrants and reasons.

<https://www.facebook.com/100006277000515/posts/2816896518529554/>?

Thanks you all Global Community for helping us safe and secure in your helpful way.

With sadness,
Naing
